# Girl Scout Membership At New High

More Supervisors Needed Here

Girl Scout membership reached an all-time high in Circleville and Pickaway County during 1947, Mrs. Robert Smith of Williamsport, County registrar, said Friday.

According to the membership figures there are 173 Girl Scouts in Circleville and Pickaway County, and more than a million and a quarter members of the organization throughout the United States and its territories.

According to Mrs. Smith, there are 86 adult volunteers and 46 Brownies; 118 Intermediate Girl Scouts; and 9 Senior Scouts in the community.

"This proportion of members is fairly typical of Girl Scout membership all over the country," Mrs. Smith said. "There is a nation-wide need for more women-and men, too-to help the girls carry on their Scouting Haynes Charge activities.

### Czech Leaders Tells How Commie Blueprint Works

EDITOR'S NOTE: Here for the first time is the dramatic inside story of the Communist power coup in Czechoslovakia—a coup laid directly at Moscow's door. Edward Bauer, an escaped official of the Catholic People's Party, tells in the following article how the Communist blueprint for conquest worked. He explains the preliminaries that led up to the grand finale and tells how a high Russian official gave the "signal" for the push that crushed Democracy in his country. Bauer was in the forefront of the futile fight against the Communists and was forced to flee his homeland. He is now in Frankfurt.

State Aide Due To Leave Friday

In seven weeks, the Ohio State Department of Taxation reduced 182 names from the Pickaway County personal property tax delinquent list representing \$7,-559.49 in back payments which will be added to the county cof-

Maxwell E. Taylor of Columbus, examiner for the department of taxation, who is responsible for the deling uent tax collections in Pick a way County, said his office in the courthouse would close Friday. For all practical purposes, the state's drive here on delinquents is completed for

"In many of these cases." Taylor said, "the people didn't know they were delinquent since they were unaware of the personal property tax law which went into effect in 1932."

He pointed to a few cases in which personal property owners have not made a single payment since the law went into effect.

"Those persons were hardest 16 years of back payments to make," he said.

TAYLOR SAID possibly a dozen more names would be added to the list before closing time Friday. This would bring unpaid taxes up to approximately \$8,000, he predicted.

Although the deadline for payment of personal property taxes in Pickaway County is not until March 31, County Auditor Fred L. Tipton said the drive has had

So far, over 3,000 tax forms have been mailed out this year to personal property owners. Last year some 2,700 were mailed which netted the county \$91,806.10, Tipton revealed.

Taylor's job here is part of a state-wide program that maintains examiners in each county. To date, the state has realized an increased collection of over \$1,300,000 in personal property delinquent taxes.

In two largely populated cour ties in which the tax drive is nearing completion, more than \$442,701 and 6.956 new names have been added. Montgomery County was increased by 2.759 names and \$221,806 added in taxes. Franklin County added 4.197 names to the list and \$220,-895 to uncollected revenues.

AT THE SAME time, in Cuyahoga and Hamilton Counties. work to reduce the number of tax delinquents has only begun. Figures there are expected to reach the same bracket as in other larger counties completed, the examiner declared.

Taylor said the state inaugurated its "war on delinquents" in 1947, and since then more people have been declaring their holdings and giving a truer report on possessions.

Records show in addition to tangible and intangible taxes added from new taxpayers, increased assessments accounted for \$2,483,464.31 which was added by the state last year to county duplicate tax forms.

An additional \$199,203.75 was placed in county tills last year by the state through increased assessments on situs (residence) intangible taxes.
